

# Do more, do it faster and do it for less with an Oracle Exadata implementation from Enkitech.

With data storage requirements exploding, service level demands increasing and budgets shrinking, Oracle Exadata delivers the world's first database machine to support both data warehouse/business intelligence and online transaction processing (OLTP) applications. And it does it all faster, better and more economically than anything else. At Enkitech, Oracle is all we've done for over 15 years. With our unrivaled experience, your transition to Exadata won't just be seamless, it'll be awe-inspiring.

A fighter jet is shown from a rear perspective, positioned on a runway. The scene is set during a sunset or sunrise, with a warm, orange and yellow glow in the sky. The jet's wings are spread, and its tail fins are visible. The runway markings are visible on the ground.

ORACLE®

## Just the very impressive facts.

Oracle Exadata is unlike any database machine you've encountered before. That's not hype. Just look at these jaw-dropping statistics\*:

- ▶ 10x to 50x data compression with hybrid columnar compression
- ▶ Up to 1,000,000 I/O operations per second to flash storage
- ▶ 80% faster CPUs – Intel Xeon (Nehalem) processors
- ▶ 50% faster disks – 600 GB SAS disks at 6 Gb/s
- ▶ 3x faster DDR3 memory
- ▶ 2x faster network—40 Gb/s InfiniBand

For a high-performance, fault-tolerant database platform, nothing comes close to Oracle Exadata.

## Experience unparalleled performance.

Our database administrators, software architects and developers average an unheard of 15 years of hands-on Oracle experience. Naturally, they're ahead of the curve with Exadata implementations. From migration and upgrade solutions to managed services and disaster recovery, our experts provide flexible solutions during every stage of your Exadata project. Ask us about:

- ▶ **Exadata Roadmaps and Assessment Services:** Planning made easy. We do the in-depth analysis to determine the best implementation strategy.
- ▶ **Exadata 11gR2 Upgrade Services:** No one knows Oracle databases like Enkitech. We'll make your transition to Oracle Database 11gR2 as smooth as possible.
- ▶ **Exadata Migration and Re-Platforming Services:** Leave the heavy lifting to us as we install, set-up, test and verify the migration of your databases to Exadata while minimizing – or even eliminating – downtime requirements for your production cutover.
- ▶ **Exadata Performance and Tuning:** Get the most performance from your investment. Enkitech will review the performance of your new Exadata environment, recommend and implement changes to optimize your performance.
- ▶ **Exadata Backup/Recovery and DR Solutions for Mission Critical Applications:** Enkitech will review and test backup/recovery systems – and recommend necessary changes – to ensure a level of accessibility and recovery speed that meets your requirements. We'll also test mission critical DR plans to verify process and procedures work as specified.
- ▶ **Full Life Cycle Exadata Managed Services:** For companies that either don't have the time or resources to become Exadata experts, Exadata Managed Services provides a cost-effective, flexible staffing solution ranging from development all the way to production support responsibilities.

## Take Exadata – and us – for a spin.

Enkitech knows that when something sounds too good to be true – like Exadata does – smart people get skeptical. So let us prove it. Enkitech will let you test Exadata with your own data and queries before you invest a dime in new hardware and software. The Enkitech/Exadata Test Drive lets you:

- ▶ Access Exadata for a hands-on review process
- ▶ Experience an actual migration with your own data
- ▶ Work with Enkitech experts possessing real-world knowledge of Exadata
- ▶ Understand Exadata sizing requirements
- ▶ Measure performance results and compression ratios
- ▶ Accelerate your evaluation process
- ▶ Utilize best-in-class acceptance and testing criteria

See firsthand the technology advances everyone else is talking about. Take advantage of the Enkitech/Exadata Test Drive – you have nothing to lose and very much to gain.

## The Enkitech difference.

Enkitech is a Dallas-based information technology services firm specializing in Oracle. Our database consultants average 15 years of hands-on Oracle experience, making them some of the most knowledgeable Oracle experts in the country. We offer services in Oracle Database Administration, Oracle Application Development and our unique On Call Service – an innovative offering that provides remote services for Oracle Systems. With a rare mix of development and database administration expertise, Enkitech has the ability to step into the largest, most complex environments and instantly make an impact.
